CORRUPTION AT THE POLLS.

Decent men of both parties must have been disgusted with the purchase of votes almost openly carried on in this precinct yesterday. The Italians were bought up like so many cattle, and herded into the polls by the Democratic workers. It was notorious all through the day that the Demo erats were buying votes and paying high prices for them—as high in some cases as \$35 or \$50 apiece. Republicans were disheartened by noon, when they saw how things were going. The corrupt and shameless use of money furnished by James C. Fair converted the sand Republican majority in Washoe county into a majority for the Democrats. The election was a sad travesty on "the expression of the will of the people at the polls."

The present election law is defective and needs amending. The ballot as cast in this State and in all the other States of the Union is not a full protection to the voter, and does not sufficiently guard against fraud. Our ballot system is not secret. Voters can be furnished ballots outside the boundaries of the polling place and · made to keep them in sight until they are deposited in the ballot box. This is not right. Make the ballot absofutely secret and all fraud and intimidation at the polls will cease.

Great Britain, Australia and Canada have a system of voting by ballot which is absolutely secret. In those countries the voters are allowed to enter the polling place only one at a time. Every voter must procure his ballot from the presiding officer in ballot bearing the names and descripcial ballots are all in the possession of the presiding officer, and no other ballots are permitted to be used. To prevent the use of any other, the presiding officer places his initials upon each ballot, and also numbers it. The quired to step into a private compartment and there mark with a cross on his hallow at a state of the control o voter, on receiving his ballot, is rehis ballot the names of those candidates for whom he desires to vote. He then folds his ballot so that nothing but the number and the initials on the back of it are displayed, and returning to the presiding officer hands him the bellot. The officer deposits the ballot in the presence of representa-tives of each candidates. The numbers on the ballots are written upon a flap or counterfolt, which flap is torn off by the officer before placing the ballot in the box. It is made a misdemeanor for any voter to take or to show what names he has marked

The foregoing is a general outline of the system of voting now in use in Canada, which in its leading features is the same as that followed in Great Britain and in Australia. It has given perfect satisfaction. It prevents culties in the way of the adoption of such a system in this country, but they are not imagerable. What is most re-Democrats and 6 Republicans. Late returns show vote on Mayoralty as follows: Grace (Dem.), 98,051; Dowd (Rep.), 96,748; Grace's majority, 1, 305. Forty-five election districts in the field, the adoption of an official ballot would be difficult.

Every man who desires to see elections purely and descently conducted be in favor of some vater. be in favor of some reform over the system of voting now in vogue. We hope to see some action taken in this matter. The logislator who will give this State a good ballot act this winter will deserve the gratitude of every eat citizen within its borders.

We congratulate our readers on th result of yesterday's elections. The Democrata as well as the Republicans are included in our congratulations, for, if they only knew it, the Demo-erats are better off than they would be pece will not permit my extended comment to day on the tele grams which have come pouring in from all quarters. It is enough at present to know that the Republicans have elected their Presidential ticket by a grand majority. The Solid South has been met by a Solid North.
